

Jordan Lee

Frontend Architect | jordan.lee.fake@example.com | (555) 010-2222

Professional Summary

Visionary Frontend Architect with over 7 years of experience specializing in building rich, interactive web applications. Expert in modern JavaScript frameworks, particularly React and Svelte. Passionate about web performance, accessibility (a11y), and establishing scalable design systems that accelerate development velocity.

Professional Experience

Frontend Architect | NextGen UI (2021 - Present)

- Spearheaded the development of a company-wide UI component library using React, Storybook, and TailwindCSS, adopted by 5 independent product teams.
- Optimized core web vitals across the main consumer portal, improving LCP (Largest Contentful Paint) by 1.2 seconds and boosting SEO rankings.
- Transitioned a legacy SPA to a server-side rendered application using Next.js, resulting in a 35% increase in initial load performance.
- Championed web accessibility initiatives, ensuring all customer-facing applications achieved WCAG 2.1 AA compliance.

Senior Frontend Developer | WebTech Innovators (2017 - 2021)

- Developed complex, state-heavy dashboards using Redux and React for financial analysts, processing real-time stock market data feeds via WebSockets.
- Automated frontend testing workflows using Cypress and Jest, cutting manual QA time in half before major releases.

Education

B.A. Interactive Media Design | Design Institute (2013 - 2017)
