

Casey Morgan

Machine Learning Engineer | casey.m.fake@example.com | (555) 010-3333

Professional Summary

Innovative Machine Learning Engineer with 4 years of experience taking predictive models from research to production. Specialized in Natural Language Processing (NLP) and recommendation systems. Adept at bridging the gap between data science and software engineering to deploy scalable AI solutions.

Professional Experience

Machine Learning Engineer | AI Insights Labs (2021 - Present)

- Developed and deployed a custom NLP text classification pipeline using PyTorch and HuggingFace Transformers, improving customer support ticket routing accuracy by 32%.
- Built scalable model serving infrastructure using FastAPI and Docker, handling over 1,000 inference requests per second with sub-50ms latency.
- Implemented automated model retraining and drift monitoring pipelines using MLflow and Apache Airflow.

Data Scientist | Retail Analytics Corp (2019 - 2021)

- Designed a collaborative filtering recommendation engine that drove a 14% increase in cross-sell revenue on the e-commerce platform.
- Performed extensive exploratory data analysis (EDA) and feature engineering using pandas and scikit-learn on datasets exceeding 100 million rows.

Education

M.S. Data Science | Tech University (2017 - 2019)

B.S. Mathematics | State College (2013 - 2017)

Technical Skills

Languages: Python, SQL, R, C++

ML/AI: PyTorch, TensorFlow, Scikit-Learn, HuggingFace, NLP, Computer Vision

Data Tools: Pandas, NumPy, Apache Spark, MLflow, Airflow

Engineering: FastAPI, Docker, Kubernetes, AWS SageMaker, Git
