

Morgan Davis

Full Stack Software Engineer | morgan.d.fake@example.com | (555) 010-4444

Professional Summary

Versatile Full Stack Engineer with 5 years of end-to-end development experience. Proficient in bridging complex backend business logic with intuitive frontend interfaces. Strong advocate for agile methodologies, continuous integration, and test-driven development.

Professional Experience

Full Stack Developer | Startup Hub (2020 - Present)

- Led the full-stack development of a B2B SaaS platform using Node.js (Express), PostgreSQL, and React, acquiring 500+ active enterprise users within the first year.
- Integrated OAuth2 authentication flows and third-party API integrations (Salesforce, Hubspot) securely.
- Established the CI/CD pipeline using GitHub Actions and deployed the infrastructure on AWS using Terraform, enabling daily automated releases.

Software Engineer | Agency WebWorks (2018 - 2020)

- Delivered customized web solutions for 15+ clients using a mix of Vue.js, PHP (Laravel), and MySQL.
- Optimized database indexing and query structures, reducing average page load times for client CMS portals by 45%.

Education

B.S. Computer Engineering | Engineering Institute (2014 - 2018)
