

Drew Parker

Engineering Manager | drew.parker.fake@example.com | (555) 010-9999

Professional Summary

Empathetic and technical Engineering Manager with 10 years of software industry experience, including 4 years in leadership roles. Dedicated to building high-performing, inclusive teams and fostering a culture of continuous learning. Skilled at balancing technical debt with rapid product delivery.

Professional Experience

Engineering Manager | ScaleUp Tech (2020 - Present)

- Managed a department of 15 engineers across 3 cross-functional squads, overseeing the successful delivery of a major platform overhaul on time and under budget.
- Implemented career progression frameworks, conducting regular 1-on-1s that resulted in a 95% team retention rate over 3 years.
- Partnered with Product Management to define roadmaps, accurately estimate technical efforts, and prioritize features based on ROI.
- Led the transition to scaled agile practices, improving sprint completion predictability from 60% to 90%.

Lead Software Engineer | CodeCrafters (2016 - 2020)

- Led the technical architecture of a high-traffic web application, transitioning it to a microservices architecture.
- Mentored junior engineers and instituted CI/CD and automated testing standards.

Education

B.S. Computer Science | State University (2006 - 2010)
